Take my hand, someone,
I'm not sure which way to turn.
Before me lies an unknown hallway
that beckons me to learn,
Don't let me pause —
just take my hand, because
I feel so very young . . .

Look back on a year gone by

On this page are three pictures of something new to Fairmont. It is our swimming pool in its early stages of development. Following this page, we find other pages of students in their development.

Our pool is built, according to a blueprint, by skilled construction workers. They build the pool from start to finish taking care to guarantee that the pool will be well-constructed. Brick upon brick is laid, and eventually the pool is ready. Upon passing an inspection it is opened to the public.

Our development follows a plan too. As sophomores we design a schedule to guide us through the building of our high school education. Teachers instruct us according to schedule in hopes of teaching the students, sophomores, juniors, and seniors, in their different levels of development. Day after day goes by, and eventually high school is finished. Upon its completion, we are awarded a diploma, and then set free in the public society.

After using the pool, it will require repair work. After completing our education it too will need to be repaired and revived as the years go by.

Fairmont will treasure its pool as one of the finer points in the community. May the students of FHS treasure their education as one of the finer points of themselves.

"Coach"

What can you say about a man who has given of himself in an all out effort for Fairmont High School? A word of thanks hardly seems adequate, and a sentimental speech seems inappropriate to express our thanks to him for instilling in our football teams the pride, hustle, and desire necessary to have great and successful teams year after year. In honor and gratitude for his contributions to us, we the students of FHS dedicate the 1971 Cardinal to Coach Tom Mahoney.

Queen
Becky

Queen Becky dances her way to the throne

Hours of work put into the campaigning, dance decorations and the construction of floats all led up to the excitement of the grand finale. Friday night's Red & White Day game in which the Fairmont Cardinals scrambled the St. Peter Saints by a score of 32 to 22.

1970 Homecoming Queen Candidates are from L TO R: Anita Perron princess, Linda Hyde, Becky Reipke, Ginny Dorendorf, Connie Betts, Sabine Wolters princess, Lori Hand, and Gloria Fraser.

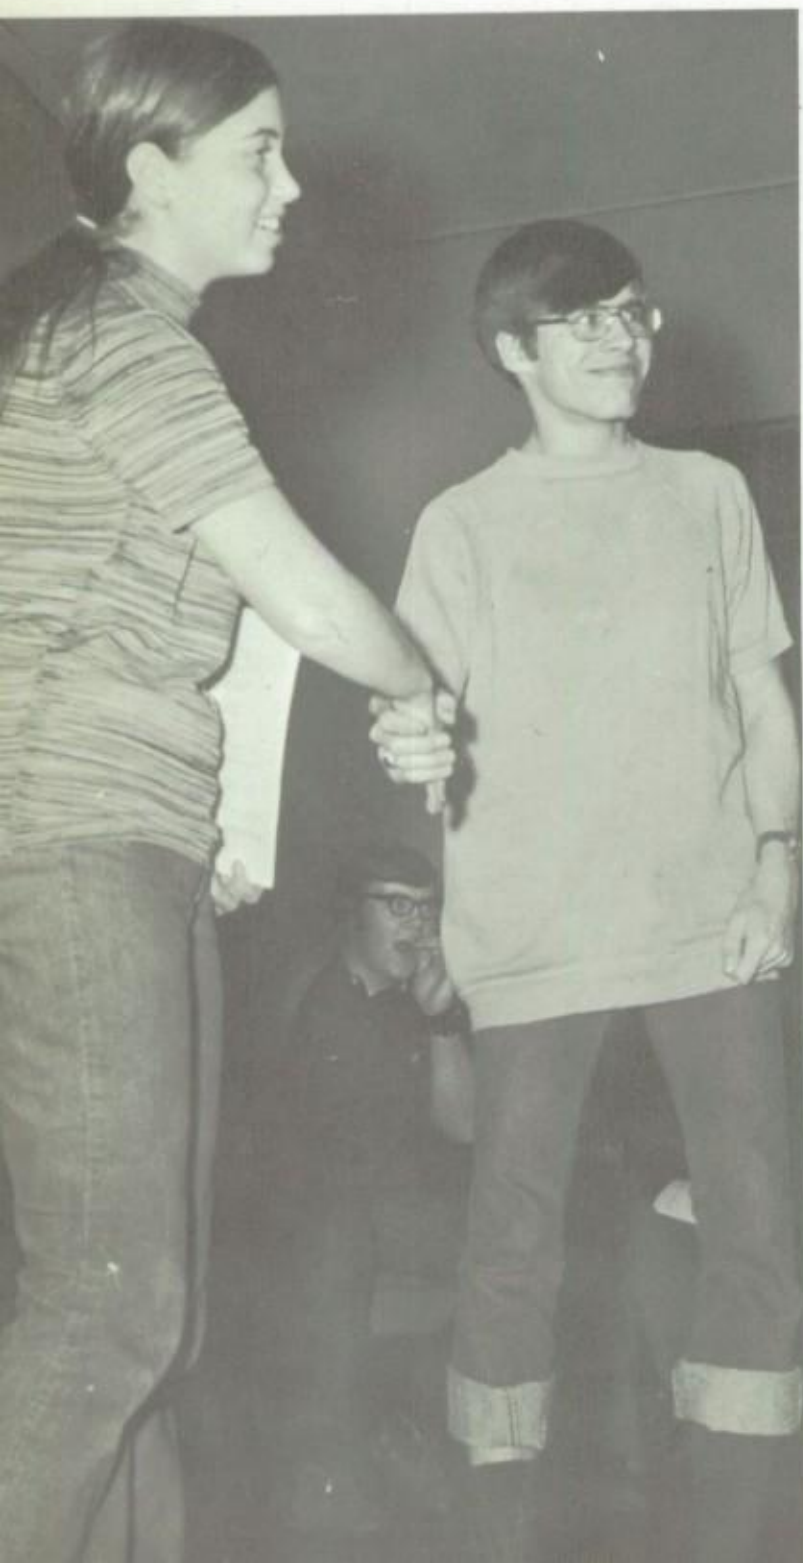

Queen Becky's tears of happiness continued during the pep fest, which followed her coronation. The DECA float planned to "Sell the Saints" with efforts displayed by Brad Krumweide. Clyde, an FHS custodian, takes time out to congratulate Queen Becky.

A spectacular prom evening

The Grand March through the inner court marked the beginning of the 1971 Prom. This year's Prom was attended by 112 couples, the largest attendance ever. The theme of the Junior-Senior Prom was "Country Gardens". Girls donned in beautiful formals and boys decked out in tuxes were seen smiling and posing for picture after picture. Amid white picket fences, colorful flowers, and ribbons of rainbow colors, Prom going couples danced to the music of The Spectacle. May 15th proved to be a fun night, and a spectacular evening for those who attended the Prom.

ABOVE FAR LEFT: Senior class president and his date, Sabine Wolters, wait patiently for the Grand March to start.

THE COMPETITIVE

The Cardinal football team under Coach Mahoney and an excellent coaching staff, put forth the effort, showed the desire, and gave 125% to make the 1970 football season a success.

After loosing the season's opener to the Worthington Trojans, the Fairmont Cardinals came right back and were undefeated for the remainder of the season. This proved that they had pride, hustle, and desire. They knew they could "Do It."

Girls capture district title

Already in their second year, the Girl's Track Team has proven its superiority by ranking number one in all their meets. Led by the leadership of co-captains, Janell Jaqua and Sue Anderson, the girls enjoyed a great year participating in the Fairmont Quadrangular, Blue Earth Invitational, and District Five Meets. The girls also improved upon their track skills by performing in two intrasquad meets.

During the fall, some of these girls worked hard on the first Girl's Cross Country team. Both these teams ran off with many honors for their accomplishments.

THE ACADEMIC

Administration the guiding rule

The principal's office is the nerve center of every high school. This past year was a particularly busy one for Principal C. H. Hegdal. Specifically, the continuation of the split schedule necessitated the sharing of the building with the junior high, creating multiple problems, implementation of 30 new semester courses and four additional vocational courses added a new dimension in meeting the interests and needs of students, planning with the staff for the new four-year high school, scheduled to open in the fall of 1972, is an exciting and challenging experience. Computer scheduling was initiated this year for better programming. The expanded program of studies, and the excellent cooperation of faculty, students and parents insured another year of progress and quality education for the youth of our community in spite of temporary inconveniences.

Richard Gulbranson, Assistant Principal, is the director of the student activity program. He has primary responsibility for discipline and attendance, and shares in the numerous tasks of the principal's office. He is also the director of the secondary summer school program.

Math = numbers + theories + ideas

The use of a computer hook-up can prove to be of great services as students this year realized. Computers seem to be the coming thing in certain math fields. For example, the advanced Math students use it for figuring and solving their calculus problems.

Math takes in a wider variety of students and therefore must interest all of them. For this reason FHS offers Business Math, Algebra, and Trigonometry, Advanced Math and Geometry. This way the student can choose his or her greatest interest.

grasp for ideas of theories

The many divisions of our science department allow the student a choice in his course of study. During the year, the student scientist gains the opportunity to experiment with the ideas he's grasped. The student has the chance to work with the slide rules, chemicals, and dissecting tools rather than the sole use of their textbook.

Student Council seeks change

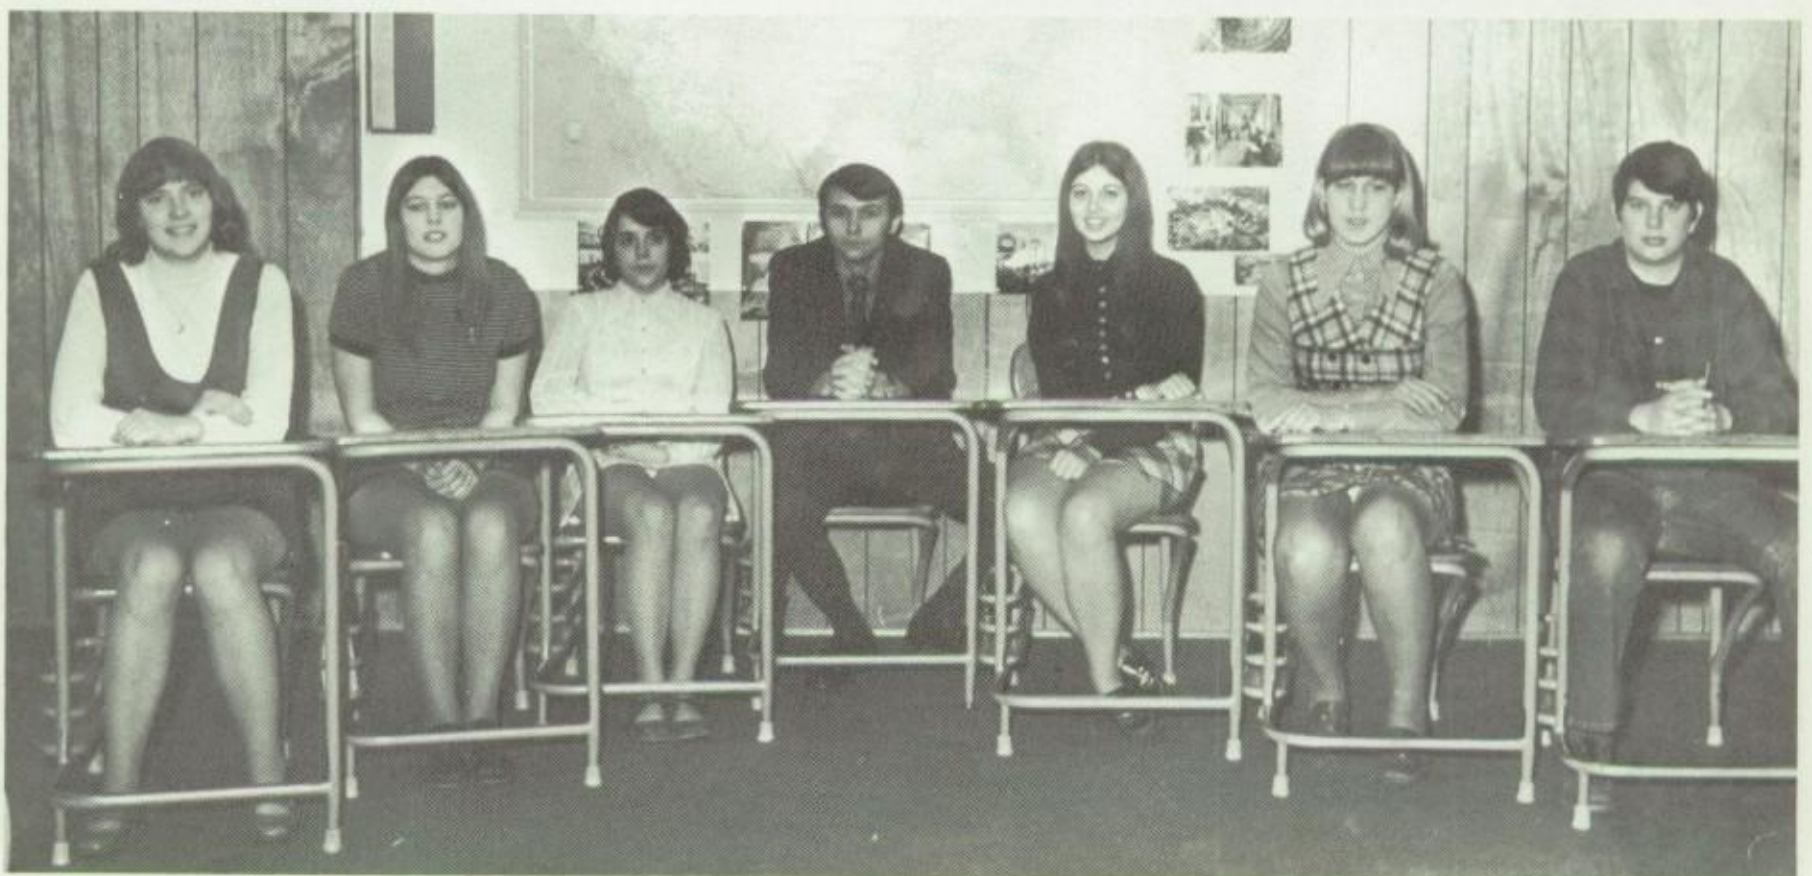

This year's Student Council under the direction of Mr. Gulbranson tried hard to make some changes and additions to the school system. Many hours were spent discussing and forming committees to bring about these changes. The year's activities ended with elections for 1971-72 S.C. president.

Class of "73" joins FHS

Sophomores felt a change of pace come about this year when they began attending morning classes. They became a part of Sr. High when they attended sports events, joined clubs, and began to plan for their future.

They met the seniors, knew their faces, and saw them leave, as they will in two years.

FAR LEFT: 1971 — the first year of class participation in Commencement! Mary Jane Garry is the first of three seniors to speak to her class.

BELOW LEFT: Remember the out house incident?

LEFT: As graduates enter the field for Commencement many different emotions are portrayed by the students facial expressions.

A black and white photograph of a person walking away from the camera down a long, brightly lit hallway. The person is carrying a bag and is positioned in the center of the frame. The hallway has a polished floor that reflects the overhead lights. On the right side, there are rows of lockers or storage units. The overall mood is contemplative and nostalgic.

... I felt so very young, back then,
It's strange, isn't it
to be a little older now?
Someone, out there, somehow —
let me take your hand,
Together we can hesitate —
It's not too late,
We are still so very young.
